Priya Nair

Junior Salesforce Developer

Austin, TX · priya.nair@example.com · salesforce.com/trailblazer/priyanair · linkedin.com/in/priya-nair-example

> **Proof:** Platform Developer · 1 yr writing Apex and LWC on a 250-user Sales Cloud org · Raised org test coverage from 71% to 88%

SUMMARY

Junior Salesforce Developer who writes bulk-safe Apex, small Lightning Web Components and the tests that keep deployments green. Comfortable in VS Code with Salesforce CLI and scratch orgs.

WORK EXPERIENCE

Junior Salesforce Developer **August 2025 – Present**

Lantern Freight Co. · 250 users · Sales Cloud

- Wrote 46 Apex test classes with @TestSetup data factories, lifting org coverage from 71% to 88% and unblocking two stalled releases
- Bulkified a legacy Account trigger that hit SOQL limits on 200-record Data Loader updates; nightly loads now finish with 0 errors
- Built a Lightning Web Component that shows open shipments on the Account page using a cacheable Apex method and lightning-datatable
- Fixed 23 bugs from the admin backlog, each with a test that reproduced it first

PROJECTS

Trailhead + GitHub: Superbadge Apex Specialist completed; LWC to-do app with Jest tests on GitHub

SKILLS

Apex: Triggers, classes, SOQL/SOSL, governor limits, exception handling

UI: Lightning Web Components, lightning-datatable, wire service

Testing + tools: Apex tests, Jest, Salesforce CLI, VS Code, scratch orgs, Git
