Marcus Lindqvist

Lead Salesforce Developer

Minneapolis, MN · marcus.lindqvist@example.com · salesforce.com/trailblazer/marcuslindqvist · linkedin.com/in/marcus-lindqvist-example

> **Proof:** Platform Developer II + Application Architect · 10 yrs Salesforce · Leads 6 developers across 3 orgs

SUMMARY

Lead Salesforce Developer who owns technical design, code quality and delivery for a 6-person team. Translates business asks into designs, estimates and reviews that keep three orgs healthy.

WORK EXPERIENCE

Lead Salesforce Developer **February 2021 – Present**

Northstar Medical Devices · 3 orgs · 3,100 users

- Lead 6 developers; run sprint planning, design reviews and code review for every change
- Cut the org's Apex CPU timeouts from 60 a week to under 5 by profiling with debug logs and moving heavy work to Batch Apex
- Set up a DevOps pipeline with scratch orgs, unlocked packages and automated tests across 3 orgs; lead time to production dropped from 3 weeks to 4 days
- Mentored 3 junior developers to Platform Developer certification

Senior Salesforce Developer **June 2016 – January 2021**

Grainline Retail · 1,200 users · Sales + Service Cloud

- Designed the order integration with the ERP using platform events and middleware
- Introduced a trigger framework and test data factory used in 140+ classes

SKILLS

Leadership: Technical design, estimation, code review, mentoring, sprint planning

Platform: Apex, Batch, platform events, LWC, integration patterns, multi-org

Delivery: Salesforce DX, unlocked packages, CI/CD, automated testing
