Diego Alvarez

Full-Stack Developer → Salesforce Developer

San Diego, CA · diego.alvarez@example.com · salesforce.com/trailblazer/diegoalvarez · linkedin.com/in/diego-alvarez-example

> **Proof:** Platform Developer + JavaScript Developer · 5 yrs JavaScript/Node · Built a Salesforce-to-web integration in production

SUMMARY

Full-stack developer moving to Salesforce. Brings 5 years of JavaScript, REST APIs and testing, and has already shipped Apex and Lightning Web Components in a production integration.

WORK EXPERIENCE

Full-Stack Developer **July 2021 – Present**

Bluewave Ticketing · web + Salesforce

- Built the REST integration that pushes web orders into Salesforce: an Apex REST endpoint plus a Node service, about 8,000 orders a day
- Wrote Lightning Web Components for the sales team's order view, reusing my JavaScript and Jest experience
- Added Apex tests with HttpCalloutMock for every callout, keeping coverage above 90% on the integration package
- Maintained React and Node apps with 95% Jest coverage before moving to Salesforce work

PROJECTS

GitHub: LWC + Apex sample app with Jest and Apex tests, deployed from a scratch org with Salesforce CLI

SKILLS

Salesforce: Apex, Apex REST, SOQL, Lightning Web Components, HttpCalloutMock

Web: JavaScript, TypeScript, Node, React, REST APIs, Jest

Tools: Salesforce CLI, scratch orgs, Git, GitHub Actions

CERTIFICATIONS

- Salesforce Certified Platform Developer, 2025
- Salesforce Certified JavaScript Developer, 2025
